⇒ The ill effects of Mobile Phones.

Respected Principal, teachers and friends.

Good morning.

Today, I want to talk about the bad effects of mobile phones. We all love our phones, but using them too much is hurting our lives.

First, phones waste our time. Every time

Date __/__/____

a phone pings, we stop studying to check it. This makes it hard to focus, and our school marks go down.

Second, phones ruin our health. Many of us stay up late looking at screens. This hurts eyes, gives us headache, and makes us feel tired in the class. We also sit inside all day instead of playing outside in the fresh air.

Lastly, screens seperate us from real people. We are so busy talking to people online that we forget to talk to our family and friends in real life.

Date ___/___/_____

To end my speech, I want to say that phones are useful, but we must control them, let us promise to make the best use of mobile phones.

Thank you.
