

CSS

Cascading style sheets

- CSS. It is a collection of rules called styles that effect the visual appearance of a Webpage
- It allows designers to specify the webpage formatting options through a style sheet while keeping html codes simple.

⇒ Simple Programme of CSS.

<html>

<head>

<title> CSS </title>

<style> p {color: blue ; background-color: yellow}

</style>

<style> h {color: red } </style>

</head>

<body>

<p> hello </p>

<p> hello </p>

<h> hello </h>
